

Image Slider / Carousel - JavaScript Project Task

Project Objective

Create a responsive Image Slider (Carousel) using HTML, CSS, and JavaScript. Users should be able to navigate through images using buttons and automatic sliding functionality.

Required Features

1. Display a minimum of 5 images
2. Show one image at a time
3. Next Button functionality
4. Previous Button functionality
5. Infinite Loop Slider
6. Auto Slide every few seconds
7. Image Counter (Example: Image 2 of 5)
8. Navigation Dots Indicator

Image Data Structure

```
const images = [  
  "img1.jpg",  
  "img2.jpg",  
  "img3.jpg",  
  "img4.jpg",  
  "img5.jpg"  
];
```

Functions To Implement

```
showImage(index)  
nextSlide()  
prevSlide()  
autoSlide()  
updateCounter()
```

JavaScript Concepts To Use

```
DOM Manipulation  
querySelector()  
querySelectorAll()  
innerHTML  
Variables (let, const)  
Arrays  
Functions  
Conditions (if-else)  
Loops  
Events  
Template Literals  
setInterval()  
clearInterval()
```

Suggested User Interface

Header: Image Slider
Image Display Area
Previous Button
Next Button
Image Counter
Navigation Dots

Project Folder Structure

```
Project Folder
├── index.html
├── style.css
├── script.js
├── images/
│   ├── img1.jpg
│   ├── img2.jpg
│   ├── img3.jpg
│   ├── img4.jpg
│   └── img5.jpg
```

Evaluation Checklist

- Images Display Properly
- Next Button Working
- Previous Button Working
- Infinite Loop Working
- Auto Slide Working
- Counter Working
- Navigation Dots Working
- Proper Use of Arrays
- Proper Use of Functions
- Clean User Interface

Expected Outcome

The application should provide a smooth image browsing experience with automatic and manual navigation features.
